

RICKI OLTEAN
EYES TO THE SKIES CREATE

Jewelry Care

Ricki's jewelry is made mostly of semi precious gemstones, stainless steel and raw brass.

The hand painted earrings are painted using non toxic paint that adheres to metal. All findings are nickel free.

All metals can patina over time and can be cleaned using Dawn dish soap. Alternatively, you can make a paste of baking soda, salt and vinegar. Gently rub the metal with a soft cloth and rinse. Jewelry can be stored away from air to prevent patina.
